Personal data

Last name, first name: _____

Matriculation number: _____

Course of study: _____

Performance / Event

☐ Bachelorthesis:

☐ Masterthesis:

☐ Other services: _____

I hereby affirm that I have completed the above examination independently and have not used any other aids than those indicated.

The passages of the above-mentioned work that were taken from other works in terms of wording or meaning have been identified in each individual case by indicating the source or origin as borrowed. This also applies to drawings, sketches, pictorial representations as well as to sources from the Internet and other electronic text and data collections and the like.

In accordance with the agreement/decision made with the examiner regarding the use of generative AI systems, I give the assurance ticked below.

Please tick the appropriate boxes:

☐ **1. Ban on generative AI systems**

I assure you that I did not use generative AI systems to create this thesis.

☐ **2. Permission to use generative AI systems with documentation obligation**

I am aware that the use of generative AI systems does not guarantee the quality of content and texts or other forms of presentation. I am fully responsible for the adoption of any output of the generative AI systems I use. I have identified all the outputs generated by the AI as such.

In the appendix "Documentation of the use of generative AI systems", I have explained which generative AI systems I have used, for what purpose I have used them and how the use took place.

☐ **3. Requirement to use generative AI systems with documentation obligation**

I assure you that I have used the tools of generative AI systems explicitly specified by the first examiner and have identified all outputs generated by the AI as such.

In the appendix "Documentation of the Use of Generative AI Systems", I have explained for what purpose I used which systems and how the use took place.

I am aware that the use of generative AI systems does not guarantee the quality of content and texts or other forms of presentation.

I am fully responsible for the adoption of any output of the generative AI systems I use.

I am aware that untruthful information will be treated as deception!

The submitted thesis has not been used for any other purpose as an examination or has not been published in German or in any other language. I also assure you that any printed copies sent directly to the examiners for review correspond to the electronic version of the thesis submitted to the Examination Office.
