

Winter School Program at Gujarat Technological University, India

GTU is a largest public university of the state of Gujarat, located at Ahmadabad City. Being a technological university, GTU serves the field of Engineering, Management, Pharmacy, Architecture and Computer Applications. About 370,000 students, 17000 professors and 446 affiliated colleagues are a part of GTU's enriched higher education system.

Overview of the program:

1. **Multiple intakes:** The program is named as Winter School Program looking at the need of foreign students as far as comfortable weather is concerned. As you know, in India, March to July remains very hot in summer. So, GTU has three intakes in a year. September, October, and February. Program start with the 1st Monday of each of these month.
These all months are having good weather with lots of festivals - which students can enjoy.
2. **Duration:** The program is designed for 2 weeks to 4 weeks. Generally, the foreign universities / students prefer 2 week duration. The first 2 weeks are hosted by the University PG departments and in case of 4 week program, the 3rd and 4th week is hosted by our affiliated institute (located at different cities of the state).
3. **Perfect blend of Academic and Socio-Cultural Experience:** Winter School Program is designed in such a way that the participants get perfect blend of Academic and Socio-cultural experience. Being a technological university, GTU is very strong in fields of Engineering, Business management (In India, MBA comes under technical courses), Pharmacy, Computer Applications and Architecture.
4. Further information can be found in the program brochure found [here](#).
