## Working student: Software-Design and Development

SAP's vision is to help the world run better and improve people's lives. As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably. At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You'll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you'll be able to get more out of your career. It's no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer.

Now it's your turn to take the next step and help make the world Run Simple.

### PURPOSE AND OBJECTIVES

Are you interested in helping world-class enterprises to solve their most complex business challenges, blaze disruptive new trails and bring their company's vision to life? At SAP Innovative Business Solutions, our mission is to empower visionary enterprises to achieve their greatest goals through software innovation. Our experts develop unique, leading-edge software solutions in collaboration with our clients – from discovery to delivery – to create tailored, high-value software that is backed by the power of SAP. We make innovation real by using the latest technologies around the Internet of Things, blockchain, artificial intelligence / machine learning, and big data and analytics. And we deliver our solutions quickly by employing an agile development approach. With development centers in Walldorf, St. Ingbert, Newtown Square, Montreal, Bangalore, Shanghai, Palo Alto, Delhi, Tokyo, Sao Leopoldo and Moscow, we are able to leverage a global delivery model that utilizes the specific strengths of each location. Since SAP Innovative Business Solutions is planning to grow its business significantly, we are looking for experts to further strengthen our execution teams.

Join us in helping clients to reimagine their business and create new possibilities that allow them to dream bigger, work smarter and change their worlds.

### EXPECTATIONS AND TASKS

As a working student, you will have the opportunity to experience the entire lifecycle of development projects and products for niche markets. You will be working in an agile setup as part of a Scrum team. During the project lifecycle, you will have the opportunity to partially work on site with customers.

Your tasks include:

- Develop software in sprints, based on an initial backlog and release plan, and deliver software to customers after short development cycles.
- Develop and test software in SAP S/4HANA projects
- Work in virtual and culturally diverse teams, according to agile development methodologies
- Support automated test coverage

### EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES

Student at a university or a university of applied sciences preferably in Computer Science or a related subject

- Good grades
- Computer skills: -Software development (e.g. Java, JavaScript, HTML5, C#, Unity)
- Good understanding of software building and deployment processes
- Ability to adopt new technologies quickly
- Language skills: English and German

Your set of application documents should contain a cover letter, a resume in table form, school leaving certificates, certificate of enrollment, current university transcript of records, copies of any academic degrees already earned, and if available, references from former employers (including internships). Please describe as well your experience and skills in foreign languages and computer programs / programming languages.
