# Senior Software Developer (m/f/d) Android Automotive (C/C++)

**Ulm**

## Your responsibilities:

- ▶ You will analyze, rate and estimate customer requirements in the context of Android Automotive Infotainment Systems.
- ▶ Software components, designed and programmed by you, will be integrated in multiple different user interface devices.
- ▶ Furthermore, you will develop graphical user interface hardware support.
- ▶ You will work in a multi-cultural team of high skilled hardware and software engineers.
- ▶ With our development teams in Ulm, other Elektrobit locations and our customers you will work in close cooperation.

## Your profile:

- ▶ You hold a university degree in Computer Sciences, Automotive Engineering or another technical education.
- ▶ In C/C++ based software development you have relevant practical experience.
- ▶ Ideally, you possess a sound knowledge in Android Open Source Project development.
- ▶ You are highly motivated and strive to develop technical excellent solutions that satisfy high-quality standards.
- ▶ Convince us by an analytical and solution-oriented thinking and an independent and target-oriented way of working.
- ▶ Your profile is completed by very good communication skills in English and German, written and verbally.
