European Graduate Program - Finance
(01.09.2020 / Oegstgeest, Netherlands)

Are you looking for an opportunity where you can bring your unique skills and talents to work every day? Do you thrive on ideas and making a visible impact? Do you want to work with colleagues who are as excited about what they do as you are, and who are building meaningful careers? Join us at Avery Dennison.

Our two-year rotational European Graduate Program offers you the opportunity to start your career with a global market leader that has innovation in its DNA and is dedicated to creating a more sustainable world. As part of this program, you will put your skills into practice working on challenging, multi-faceted assignments within your area of expertise in a fast-paced and multicultural environment.

While you are on this exciting journey, you will receive plenty of support along the way. Our Mentoring Program, combined with a concentrated blend of experiential on-the-job learning, classroom and online training will enable you to build your skills and transition from college to the corporate workplace, leveraging strengths and defining your career path.

What we can offer you!

Within the Finance stream of the program, you will support the different teams of our European Finance function and gain a broad understanding of how those operate and are connected with each other. Being exposed to such varying assignments with real, hands-on responsibilities integral to our business will ensure that you have the opportunity to develop not only the analytical, but also the business & leadership skills needed to make your mark and accelerate your career!

Your tasks may include activities such as:

- Support our different functions like Procurement, Commercial and Operations by conducting business diagnostics and analysis
- Participate in Month-end reporting as well as quarterly forecasting and annual planning
- Involvement in Financial Expenditure and Finance projects on European level

What we expect from you!

- University Degree (Bachelor / Master) in a relevant Business / Economics field
- First relevant practical experience (e.g. internships, project work), preferably in an international manufacturing environment
- A good level of English

We are looking for agile problem-solvers who enjoy working in a dynamic and collaborative environment, and who are striving to make a difference by contributing their own strengths and ideas.

Applying for European Graduate Program means going all out for an exciting, dynamic and multi-faceted opportunity that offers new challenges each day. Are you ready to take on the challenge? Please apply online now via our Career Pages or using the direct link to this position!
