Working Student (f/m/d): Development SAP GUI for HTML in CP UI P&S

SAP GUI for HTML

COMPANY DESCRIPTION
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.

SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

PURPOSE AND OBJECTIVES
The organizational unit “Cloud Platform - User Interfaces - Products & Services” is responsible for developing and supporting some of the most important parts of SAP NetWeaver such as the SAP GUI User Interface technologies, Web Dynpro ABAP and Java, and the functional test tool eCATT.

The WebGUI development team is responsible for development and maintenance of SAP GUI for HTML.

EXPECTATIONS AND TASKS
In order to further improve our high-quality standards we are looking for a highly motivated working student who - as a member of the development team - will focus on the following tasks:

- Performing and optimizing manual tests
- Documenting and tracking the test results
- Developing test cases and enhancing our automated test suite
- Following-up on the results with the developers

EDUCATION AND QUALIFICATIONS/ SKILLS AND COMPETENCIES

- Student (f/m/d) of a university or university of applied sciences
- Preferred fields of study: Science or Information Technology
- Experience with different operating systems
- Fluency in oral and written German and English
- Very good analytical skills
- Good knowledge in Web technologies and Python would be helpful but not required
- Pragmatic
- Goal-oriented approach to work
- Team player
- Very good perception about quality

Your set of application documents should contain a cover letter, a resume in table form, school leaving certificates, current university transcript of records, copies of any academic degrees already earned, and if available, references from former employers (including internships). Please describe your experience and skills in foreign languages and computer programs/ programming languages.
