## (Senior) Developer (f/m/d) for Academic Partnerships at SAP Labs Munich (Garching Campus)

SAP's vision is to help the world run better and improve people's lives. As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably. At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You'll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you'll be able to get more out of your career. It's no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer.

Now it's your turn to take the next step and help make the world Run Simple.

### About the team

The SAP Innovation Center Network (ICN) is responsible for contextualizing and pioneering the emerging technologies that will be foundational for SAP's future success. We are a diverse, global team and collaborate across roles, functions, and locations, enabling every colleague to contribute and investigate new ideas. We identify and contextualize emerging technologies to define their value for business and society. With around 200 development, business and design experts worldwide, the ICN is geared up to make an impact. As innovation requires courage, curiosity, and patience, we live up to a culture of trial and continuous learning. This paves our way to success: We create tangible business value for our lines of business and for our customers through large-scale adoption of cutting-edge technology at SAP.

### The Role

With our new location at SAP Labs Munich (Garching Campus), the Innovation Center Network expands into greater Munich to partner with the local academic community, customers, and the entrepreneurial ecosystem. As a (Senior) Developer for Academic Partnerships, you will become part of a young, agile team that is responsible for our strategic engagements with universities and research institutions in and around Munich, but also globally. You will source early technologies through applied research partnerships and help to translate new concepts and ideas into assessable and feasible software prototypes that matter. Your strong engineering attitude and desire to solve real customer needs contributes to our team's success in delivering relevant directions and technology that have validated business value for our company and our customers.

### Role Requirements

- University diploma or Master's degree in Computer/Data Science, Information Systems, or related fields
- Strong programming skills in at least one programming language and relevant work experiences in software development projects, preferably with a focus on data management, data analysis, cloud engineering, security, or user experience
- Goal-oriented, hands-on, and ready to work in an agile environment and short-cycled projects with academic partners and internal project stakeholders
- Fluent language skills in English - both written and spoken (German is a plus)

### Work Experience

We are looking for professionals with up to 5 years of work experience or PhD graduates, preferably with a background in one of the beforementioned fields.

### WHAT YOU GET FROM US

Success is what you make it. At SAP, we help you make it your own.

A career at SAP can open many doors for you. If you're searching for a company that's dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now..

### SAP'S DIVERSITY COMMITMENT

To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company. SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: [Careers.NorthAmerica@sap.com](mailto:Careers.NorthAmerica@sap.com) or [Careers.LatinAmerica@sap.com](mailto:Careers.LatinAmerica@sap.com), APJ: [Careers.APJ@sap.com](mailto:Careers.APJ@sap.com), EMEA: [Careers@sap.com](mailto:Careers@sap.com)). Successful candidates might be required to undergo a background verification with an external vendor.
