

Internship in Global Supply Chain Processes & Projects (m/w/x)

Aalen

Step out of your comfort zone, excel and redefine the limits of what is possible. That's just what our employees are doing every single day – in order to set the pace through our innovations and enable outstanding achievements. After all, behind every successful company are many great fascinating people.

You will

- work in an interdisciplinary team of professionals and contribute with your personality, flexibility, and your skills
- have the opportunity to assist the Supply Chain Excellence team in running projects and initiatives
- help to prepare presentations for project workshops and support business process documentation to gain a deeper understanding of Supply Chain practices
- support analyzing large data sets e.g. for validation and processing of these and help to improve existing tools
- manage your own task or own initiative during the course of your internship supported by a project manager enabling you to take responsibility for your own deliverables

You have

- already begun to study in the field of Business Administration, Management or Business Engineering, preferably finished your bachelor's degree
- excellent grades during your studies, preferably in the fields of Logistics or Supply Chain Management
- gained first practical experiences in Supply Chain Management in an industrial environment
- advanced skills in Microsoft Office 365, esp. Excel, SharePoint Online and MS Teams, a basic understanding of MS Power BI is a plus
- willingness to implement things as well as analytical, organizational and communication skills
- a very good command of business English and German
