

Change the world. Love your job.

## Business Finance Intern (m/f/d)

As a Business Finance intern, you will support the EMEA Financial Planning team preparing P&L forecasts, cost analysis and financial reporting to help drive our businesses' financial excellence. You will also be responsible for performing month and quarter close activities as well as several compliance tasks.

### YOUR TASKS

- Support cost analysis, preparation of cost forecasts and preparation of financial reporting on actual costs
- Support monthly and quarterly financial close activities
- Create and optimize financial reports and databases using Excel and Spotfire
- Prepare cost distribution keys
- Prepare business results presentations
- Control and monitor compliance standards

Timeline: Join the Business Finance Team as an intern starting in February/March 2022

### YOUR QUALIFICATIONS

- Ongoing studies in Business, Management, Finance, Accounting, Logistic or Operations Management
- Advanced English language skills. Other languages are an added advantage
- Intermediate knowledge of MS Office (Excel, PowerPoint)
- SAP and Spotfire knowledge are a plus
- Strong problem-solving and analytical skills
- Ability to work independently and in a team
- Very good communication and relationship skills
- Strong financial and intercultural understanding

### OUR OFFER

- Opportunity to gain broad experience within finance and accounting to understand the big picture
- Possibility to apply theoretical knowledge into practical solutions
- Exciting, challenging and creative tasks
- Interesting projects
- Competitive and attractive compensation
- A very pleasant and team orientated working atmosphere
- An international environment

As a global semiconductor company operating in 35 countries, Texas Instruments (TI) is first and foremost a reflection of its people. From the Tier who unveiled the first working integrated circuit in 1958 to the more than 30,000 Tiers around the world today who design, manufacture and sell analog and embedded processing chips, we are problem-solvers collaborating to change the world through technology.
