

Change the world. Love your job.

Customer Operations Intern

Your position in the Operations department provides you the opportunity to gain knowledge and exposure to various functions and business processes within TI including but not limited to Sales, Planning, Logistics, Receivables and Credits and Asset Management.

The Customer Operations team is focused on eliminating barriers and supporting business growth, by driving optimal demand coverage and proactive order management activities with Customers and Sales. The internship will allow you to understand Texas Instruments' order-to-cash process, while also giving you the opportunity to take responsibility for an individual project related to your academic background.

YOUR TASKS

Your position would be in the Sales Operations department, an integral sector of TI, giving you the opportunity to be a key team member in the following areas:

- Supply Chain and Customer Operations

The **Customer Operations** team is focused on **eliminating barriers of logistics processes** and **supply / demand management** to **achieve annual revenue plans** by driving **optimal backlog coverage** and **proactive order management**.

Timeline: Join the Operations Team as an intern beginning of 2022

YOUR QUALIFICATIONS

- Ongoing studies in **Business, Logistic, Supply Chain Management, Finance** or **Operations Management**
- Advanced **English** language skills are an advantage
- Advanced knowledge of **MS Office** (Excel, PowerPoint), proficiency in **SAP** and **Business Objects** preferred
- Strong **problem-solving** skills and **analytical** skills

- Ability to **work independently and in a team**
- Very good **communication** and **relationship skills**

OUR OFFER

- The possibility to **gain new experiences** and to implement **theoretical knowledge in practical solutions**
- **Exciting, challenging** and **creative** tasks
- Interesting projects
- **Attractive compensation**
- A very pleasant and **team oriented** working atmosphere
- An **international environment**

As a global semiconductor company operating in 35 countries, Texas Instruments (TI) is first and foremost a reflection of its people. From the Tier who unveiled the first working integrated circuit in 1958 to the more than 30,000 TIers around the world today who design, manufacture and sell analog and embedded processing chips, we are problem-solvers collaborating to change the world through technology.
