

Internship 3D Prototyping GORE-TEX Shoes (f/m/d)

Location: Feldkirchen-Westerham near Munich

Job-ID: 212709

About Us: Gore is a materials science company focused on improving lives through discovery, product innovation and rewarding careers for our Associates. Those who choose Gore, want to discover and explore new ways - using their passion and knowledge, where doing so as part of a strong and engaged network is as important as individual performance.

About the Industry: Gore's pioneering contributions to the science of comfort and protection create fabrics for a range of activities and conditions. Learn more at gore.com/products/industries

About the Role: We are looking for an intern (f/m/d) in Feldkirchen-Westerham to support our R&D Footwear team starting from 01.02.2022 in the field of 3D Prototyping. For 6 months you will be working closely with your colleagues in the GORE-TEX Footwear team and help to develop the very innovations that make our products even better and more attractive.

Responsibilities:

- Independently take over a subproject and accompany it through all stages of rapid prototyping, starting with 3D drawings, 3D prints and robotics
- Deal intensively with the given situation and question and develop well-founded solutions
- To further validate your solutions, work closely with colleagues in R&D
- You have modern measuring methods and imaging techniques at your disposal
- Explore our capability of our 3D printers and the associated software further
- With a lot of personal responsibility and interest, you carry out evaluations based on your data obtained
- Your structured way of working, your thirst for knowledge and your open nature will help you to make your internship at Gore a special experience

Required Qualifications:

- Currently you are enrolled as a student of mechanical engineering, material science, sport technology or a similar course of studies
- Experience in working with 3D CAD-programs (e.g. SolidWorks (TM), Inventor, and more) are essential
- Communication is your strength and you speak fluent English. Good German skills are an advantage
- You approach new tasks very structured
- You think analytically and you got the "spirit of research"
- Keen to take the initiative and passionate about working in an international environment
- Teamwork is just as important to you as working independently

That's what you've got to look forward to:

- The opportunity to join a highly motivated team and a good working atmosphere
- An interesting and challenging opportunity with an international focus
- A very good compensation
- A healthy approach to work-life-balance, free tea and coffee, a subsidized canteen and more

We believe in the strength of a diverse workforce and inclusive work environment. In support of our values and continued success we are proud of Associates around the world who support an inclusive work environment, strive to reflect the diversity of the communities where we operate, and ensure all Associates and external partners are treated with fairness, dignity, and respect.
