

VOITH

About the Voith Group

The Voith Group is a global technology company. With its broad portfolio of systems, products, services and digital applications, Voith sets standards in the markets of energy, oil & gas, paper, raw materials and transport & automotive. Founded in 1867, the company today has more than 20,000 employees, sales of € 4.3 billion and locations in over 60 countries worldwide and is thus one of the larger family-owned companies in Europe.

The Voith Group | Division Paper is looking for candidates (m/f/d) with potential for our INNOVATE Talent Program. This program offers graduates (m/f/d) a 24 months development journey, to build-up on their talent, in preparation for their future at Voith.

INNOVATE Talent Program: Junior Project Manager (m/f/d) - Supply Chain Development & Digitization

Job ID 69895 | location Heidenheim | starting October 2022

Detect your own aspiration!

The program gives you the opportunity to find your individual way within our broad business set-up. We offer a varying development journey for junior engineers or technical graduates (m/f/d). Your working areas relate to strategically important and current business issues, including high interaction with other departments and interdisciplinary approaches.

The program consists of an appropriate onboarding in your department, including functional and personal trainings dependent on your individual requirements. According to the job set-up and your interests, job rotations and short-term international trips may be included. You additionally benefit from an experienced mentor (m/f/d), who will ensure a well-suited introduction into Voith as a company.

Find more details about our **INNOVATE Talent Program**.

Your tasks

- Look forward to variety and responsibility: Become a valuable member (m/f/d) of our team and contribute to the development, concretization and implementation of the digital roadmap in the supply chain area.
- Take on exciting work packages within the digitization and optimization of processes and support the introduction of digital platforms.
- Support the digital visualization of processes, statuses and KPIs as well as the digital networking of relevant supply chain functions.
- Use your communication and organizational skills to independently plan, manage and implement various digitization initiatives.
- Support cross-functional projects of the complete supply chain.
- A stay abroad of several weeks at one of our locations is planned.

Your profile

- Degree in the field of engineering, industrial engineering, business informatics, mechatronics or computer science with good results.
- Very good command of written and spoken German and English.
- Strong communication and negotiation skills as well as commitment.
- Open and curious personality (m/f/d) with an eye for new things and the willingness to actively move things forward.
- High affinity towards digitalization as well as an interest in the processes of the complete supply chain.
- Willingness to travel worldwide.

Become a Voithian (m/f/d) and join us to shape the future of our company. Working at Voith means to actively promote future-oriented technologies. We offer you a responsible job in our division **Paper** with challenging tasks and scope for creativity. Furthermore, there are a lot of **other reasons** working with Voith. Take your chance – at Voith.
