## **ABOUT US**

Symptoma is your digital health assistant.

It helps you understand what might be wrong if you are feeling unwell. Simply state your symptoms and answer questions to find possible medical causes.

Symptoma is based on 16 years of scientific research by medical doctors and data scientists to help patients find possible medical causes for their symptoms.

Today, Symptoma is the most used symptom checker among both, doctors and patients, with millions of users and searches per month. Its diagnostic accuracy is raising the bar in its industry and has been validated in internal, external, and peer-reviewed scientific publications comparing up to 107 solutions worldwide where Symptoma clearly ranked as #1.

## **OUR MISSION**

Eliminate the guesswork from medicine.

## **OUR VISION**

Enable precision medicine - because every patient deserves the right diagnosis and treatment.
