ALPLA[®]
FAMILY OF PIONEERS

Shape the next generation of plastic packaging solutions with us. We are a family-owned business focusing on the sustainable development and production of innovative packaging systems for a wide range of industries. Join us in paving the way towards an efficient circular economy in the packaging industry. Sustainability and in particular the environmentally conscious use of resources drive all business activities for our clients. Founded in 1955 in Austria, 21,600 colleagues now work together in 178 production facilities in 45 countries.

JUNIOR PROJECT ENGINEER - RECYCLING (M/F/X)

 **Hard / Austria**

 **Fulltime**

 **Recycling**

WHAT YOU WILL ENJOY DOING

- Support & assist the project execution in the field of recycling
- Coordinate & execute trials and analysis within the plants, technical centers or at external parties
- Collaborate on technical configuration, layout and operational requirements of recycling equipment
- Coordinate resource availability (machines, infrastructure, transport, material, etc.) in cooperation with internal and external stakeholders
- Troubleshooting & Operations support for existing Recycling Plants

WHAT MAKES YOU GREAT

- You have technical or commercial education in the fields of plastics technology, recycling, environmental technology, mechanical engineering or a comparable direction
- You have already gained first experience in the field of project management
- You impress with your innovative, solution-oriented, efficient and amazingly organized work style
- You are fluent in English and display a very good command of German
- A high level of commitment, a strong will to shape things and the willingness to travel around the world round off your profile

WHAT YOU CAN EXPECT WORKING WITH US

- You can develop personally with us and can expect interesting assignments and creative opportunities
- You can expect a secure future with us –as a manufacturing company, we are globally on a growth path
- Unlimited workplace flexibility thanks to generous rules regarding working from home
- We promote climate-friendly mobility with everything from a year-long season ticket for local public transport to purchasing an e-bike
- Benefit from discounts on tickets for sports events, better private insurance conditions, the registration fees for running events being covered and numerous discounts at retail outlets in Vorarlberg
