Betreff: Tec Winter School 2022 - Call for Applications

Dear Partner:

Following our message sent last June, we are happy to announce our **Tec Winter School** Programs for 2022.

Tec Winter School is part of our Intensive Winter Term at Tec de Monterrey. This year, we are offering 3 different programs to choose from:

iWinterMx Program (4 weeks)

Modality: in-person multicampus program

You already know about our iWinterMx Programs, an innovative, experiential learning academic option designed for International students who love traveling and learning about new cultures while visiting different Tec de Monterrey campuses in different cities.

The program is enriched with special activities such as field trips, company visits, and networking events that will make their experience unforgettable, creating everlasting memories, exercising their intellectual curiosity, and developing entrepreneurship, innovation, and leadership skills in a multicultural setting.

Due to the worldwide Pandemic, this year we have decided to concentrate on two programs only:

Global Business

Cities visited: Mexico City, Queretaro, Leon, and Monterrey

[Click Here for Brochure](#)

Culture and Identity

Cities visited: Mexico City, Queretaro, Puebla, and Guadalajara

[Click Here for Brochure](#)

[Here](#) you can access a poster that you can share with interested students.

Undergraduate Research Projects (5 weeks)

Modality: in-person or online program only in Campus Monterrey

We have more than 100 opportunities available for students interested in doing supervised research this winter and develop their skills, obtaining valuable experience and getting academic credits. [Click here](#) to know more about the structure of the program and available projects in different disciplines.

Regular University Courses (5 weeks)

Modality: in-person and online program only in Campus Monterrey

A variety of courses will be available in areas such as Engineering, Biotechnology, Information Technology, Business, Economics, Humanities, Social Sciences, Architecture, Arts and Design, Agriculture and Food Technology, Health Sciences, and Political Sciences.

You can request a catalog of available courses at studyinmexico@itesm.mx

If you are interested in sending your students to any of these academic options this next Winter Term 2022, please let us know by answering this [4-question survey](#) so we can give proper follow-up on your interest.

For more information about Tec Winter School 2022 programs, visit our [website](#).

If you have any questions, please feel free to contact your incoming student advisor at Tec de Monterrey or write to studyinmexico@itesm.mx

Sincerely,

International Programs Office
Tecnologico de Monterrey
