

Check list

Master Advanced Materials and Manufacturing

What documents do I need to submit to Aalen University until the application deadline?

Important

Application deadline summer semester: 30 November (of the preceding year)

Application deadline winter semester: 15 June

The following documents must be submitted:

- Application for admission to the study
- The university entrance certificate (*Abitur*, advanced technical college qualification)
- a certificate of a vocational degree in e. g. Material Technology, Mechanical Engineering, Production Engineering, Engineering or a related field (e. g., Chemistry or Physics) with a grade of 2.5 or higher and 210 ECTS points or higher or at least 180 ECTS points (in which case the lacking 30 ECTS points shall be acquired during the Master study)
- a certificate of the temporary final grad (in case you have not received your definitive school-leaving certificate yet)
- Transcripts including overview of grading system
- Evidence of any professional training, occupation or other practical work
- Résumé
- Letter of motivation
- Evidence of the required German or English language skills (only candidates whose mother tongue is neither German nor English) DSH/TestDAF or TOEFL/TOEIC
- Please find the research topics currently offered for the 'Advanced Materials and Manufacturing' Research Master on the website. Please rank up to two research projects, one of which you will work on during your study (the research projects are provided as pdf documents below the description of the research subjects). The test for suitability and the discussion of a subject will follow during the further admission procedure.

Please, note:

All accompanying certificates must be submitted as a **certified copy from the embassy**. Certificates in English will be accepted. We absolutely need a notarised translation of any documents not available in German or English.
