## Master Polymer Technology

---

### Important

Application deadline summer semester: 15 December

Application deadline winter semester: 15 June

### **The following admission requirements apply:**

- bachelor degree in mechanical engineering, production technology, materials technology, plastics technology, mechatronics, chemistry, physics or related subject
- certificate of the provisional final grade/average grade (if you have not yet received your final diploma)
- grade 2,5
- at least 180 ECTS points
- proof of the required English language skills (only applicants whose native language is not English) TOEFL or TOEIC B2 level

### Please note:

All certificates/certificates must be in German or English. We only require officially certified documents upon enrollment!

We also require recognition from the Stuttgart Regional Council for German applicants with an international degree.
